# Emolivan™ cream base

## A natural W/O cold cream base

Emolivan™ is a unique, natural, oil-based emulsifier and is often used in patients with (very) dehydrated and/or affected skin because of its unique hydration effects. Like other Fagron Advanced Derma bases, Emolivan™ is designed according to the latest insights into the tolerance of ingredients used in dermatology.

### Benefits

- Borate-free formulation with natural oil-based emulsifier
- Ensures effectiveness and reproducibility of the process
- Rich in omega-6 and vitamin E
- Non-greasy skin feel and rapidly vanishing
- Compatible with a broad range of APIs and DCIs\*
- Formulated without harmful and controversial ingredients

### Example compounding formulations in Emolivan™

Zinc oxide	20%	Hydrocortisone acetate	1%
Tacrolimus	0.3%	Salicylic acid	5%
		Glycerin	5%
Tocopherol (vit. E)	5%	Arginine HCl	2.5%
		Glycerin	2.5%

NDC No. **51552-1396-05** Size **500 G**

Dehydrated Skin Very Dehydrated Skin Affected Skin

### Compatible with a broad range of APIs & DCIs

#### Examples

API/DCI	Common concentration(s)
Aloe vera extract	0.5 to 10%
Benzyl benzoate	25%
Clobetasol propionate	0.05%
Diclofenac sodium	3%
Hydrocortisone	0.25 to 2.5%
