Fitalite™ cream base

A natural, hydrophilic gel cream base

Fitalite™ vehicle contains vitamin E and oil bodies from plant sources known as phytosomes, which give Fitalite™ its unique antioxidant and skin-moisturizing properties. Fitalite™ is ideal for both prescription compounding and basic skin care. Fitalite™, like other Fagron Advanced Derma bases, is designed according to the latest insights into topical vehicle safety and maximum solubility properties.

Benefits

- Ultra-light, non-greasy skin feel
- Gentle moisturizing properties
- Added natural antioxidants to support ingredients and the skin
- Compatible with a broad range of APIs and DCIs*
- Formulated without fragrances, dyes, parabens, mineral oils, SLS, propylene glycol and ethoxylates

Example compounding formulations in Fitalite™

Permethrin	5%	Latanoprost	0.005%
Lactic acid	8%	Clindamycin HCl	1%
		Tocopherol (vit. E)	2.5%
Mometasone furoate	0.1%	Clindamycin HCl	1%
		Alpha bisabolol	2%

NDC No. **51552-1383-05** Size **500 G**

Compatible with a broad range of APIs & DCIs

Examples

API/DCI	Common concentration(s)
Benzoyl peroxide	2.5 to 5%
Hydrocortisone	0.25 to 2.5%
Lactic acid	1 to 20%
Latanoprost	0.005%
Retinol (vit. A)	0.4%
Tretinoin (vit. A acid)	0.01 to 0.1%
