Fagron personalizing medicine

Fagron goes beyond being just a supplier of ingredients; we are relentlessly **consumer-centric**. Our commitment to innovation is ingrained in everything we do for our partners, making us pioneers in shaping the future of **personalized health**.

At Fagron, innovation is at the heart of everything we do. The Fagron Innovative Materials (FIM) initiative was born out of a clear vision – a vision to introduce a range of materials and compounds in recognition of the growing need to create the highest quality customized and cutting-edge health solutions. Ultimately, the FIM project is about empowering industry customers to achieve new levels of creativity, while we are enabling the delivery of the highest quality customized health and beauty solutions that improve outcomes and quality of life.

Fagron's Value-Driven Innovative Materials for Market Success

Market Insights and Trends

We stay ahead of industry trends and emerging market insights to provide you with cutting-edge ingredients that align with consumer demands and current requirements.

Differentiation and Branding

Our portfolio offers you the opportunity to differentiate your products and build a distinctive brand presence in the market.

Unique, Clean Label, High-Quality Ingredients

Fagron's materials are known for their uniqueness, clean label appeal, and uncompromising quality, ensuring the success of your formulations.

Natural Ingredients

We respond to the growing demand for natural ingredients and their growing clinical value.

Convenience & Time-Saving

Our streamlined processes and diligent behind-the-scenes work ensure that you receive complete documentation and your materials on time, saving you valuable resources.

Sustainability and Ethical Sourcing

We are committed to ethical sourcing practices and sustainable initiatives, contributing to a healthier planet and a responsible supply chain.

Innovation and Creativity

Our range of materials can help you spark creativity and develop groundbreaking and successful solutions.

Quality Compliance

We adhere to high-quality standards, ensuring that our materials meet strict requirements.

Consumer preferences and market trends

Holistic Well-being

Consumers prioritize holistic well-being, disease prevention, and longevity.

Personalized Health

The demand for personalized health solutions is rising, with consumers seeking tailored products to meet their health goals.

Natural and Plant-Based

Natural and plant-based ingredients are in high demand, reflecting the desire for cleaner and more eco-friendly products.

Specific Health Goals

Products that address specific health goals such as energy-boosting, weight management, immunity enhancement, cognitive health, stress relief, and beauty are in great demand.

Alignment with Values

Consumers prefer products that align with their values, including those promoting sustainability and ethical sourcing.

Clinical Evidence

Consumers look for products with clinical evidence supporting the effectiveness and safety of natural materials and compounds.

Efficacy and Safety

In their search for health solutions, consumers prioritize products that effectively address their needs while maintaining a focus on safety.

Fagron Innovative Materials Categories

01
Health & Wellness industry

Focus

Well-being, nutrition, food supplements, nutraceuticals.

Designated use

Dietary supplements containing FIM products as main ingredients, or as synergistic ingredients in targeted formulations.

02
Personal care & Cosmetic industry

Focus

Skincare, skin treatment, haircare, beauty.

Designated use

Cosmetic formulations containing FIM products at a final concentration typically ranging between 0,5 to 3%.
