Compounding practice, quality & cannabis

TIME	TOPIC	SPEAKER
11:00 – 11:30	Quality of primary packaging materials <i>The packaging material is part of the formulation: how the right selection and testing of primary packaging materials decisively influence the stability, shelf life and safety of your preparations.</i>  GERMAN  ENGLISH	Birgit Hidalgo Gil PTA
12:00 – 12:30	Rethinking cannabis – reshaping compounding <i>Becanex & Fagron PLEX raw extracts: how individual cannabis formulations become a genuine revenue driver for your pharmacy – from the quality of the raw extract to the finished preparation.</i>  GERMAN  ENGLISH	Carina Bopf Head of Sales, Becanex GmbH
13:00 – 13:30	Innovations that make everyday compounding easier <i>New aids, bases and concepts that make your compounding faster, safer and more economical – compact and directly applicable.</i>  GERMAN  ENGLISH	Dr. Stefan Bär PharmD
14:00 – 15:00	Beyond the CoA: supplier qualification and quality in compounding <i>A Certificate of Analysis is only the beginning. How rigorous supplier qualification, traceability and quality governance protect your patients – and your pharmacy – in everyday compounding.</i>  ENGLISH  GERMAN	Savvas Koulouridas LLB, MA, MSc
15:00 – 15:30	Inside a major compounding pharmacy <i>A behind-the-scenes look at Bahnhof-Apotheke Kempten: how organisation, quality and passion shape one of Germany's best-known compounding pharmacies.</i>  GERMAN  ENGLISH	Jennifer Fischer Pharmacist, Bahnhof-Apotheke Kempten
16:00 – 16:30	Optimised preparation of HRT formulations <i>Producing bioidentical hormone formulations safely, reproducibly and efficiently – proven formulation concepts and practical tips for everyday compounding.</i>  GERMAN  ENGLISH	Dr. Stefan Bär PharmD
16:30 – 17:15	ROUND TABLE Peptides in Compounding: Safety and the Regulatory Frontier The pharmacist's view <i>Feasibility, quality, stability and sterility – what safe peptide compounding truly demands at the bench.</i>  ENGLISH  GERMAN The physician's view <i>Indications, clinical evidence and patient safety – where peptides genuinely help, and where caution is essential.</i>  ENGLISH  GERMAN The regulator's view <i>Classification, legal status and compliance – navigating a fast-moving and tightening regulatory landscape.</i>  ENGLISH  GERMAN	Dr. Hudson Polonini PharmD Dr. Carolina Silva MD, Pediatrician Savvas Koulouridas LLB, MA, MSc

Paediatrics — safe dosage forms for children

TIME	TOPIC	SPEAKER
11:00 – 11:40	SAFE MEDICINES FOR THE SMALLEST PATIENTS Safe by design: excipient safety in neonates & infants <i>Ethanol, propylene glycol, benzyl alcohol, benzoates, parabens and heavy sugar loads have no place in a neonate's medicine — why they matter at this age and why many commercial products fall short.</i>  ENGLISH  GERMAN	Dr. Carolina Silva MD, Pediatrician
11:40 – 12:00	From tablet to spoonful: optimising oral suspensions <i>Turning capsules and tablets into stable, accurately dosed suspensions — vehicle choice, technique and the quality checks that make the difference at the bench.</i>  ENGLISH  GERMAN	Dr. Hudson Polonini PharmD
12:00 – 12:30	TINY TABLETS, BIG ADVANTAGES: MINITABLETS FOR CHILDREN Why minitables work for children <i>The evidence that infants and toddlers accept minitables; precise count-based dosing (1, 2, 3 units), fewer excipients, no sugar burden, and better stability, portability and adherence than liquids.</i>  ENGLISH  GERMAN	Dr. Carolina Silva MD, Pediatrician
12:30 – 13:00	Hands-on: compounding minitables with DiluTab <i>Roll up your sleeves — a live, step-by-step demonstration of producing dose-flexible minitables in the pharmacy, from blend to press to finished dose.</i>  ENGLISH  GERMAN	Dr. Anderson Ferreira PharmD
14:00 – 14:30	THE PATIENT WHO CAN'T SWALLOW: PAEDIATRIC DYSPHAGIA When swallowing fails: the clinical picture <i>Dysphagia in children and beyond — why standard solid dosage forms fail these patients and where tailored compounded forms change outcomes.</i>  ENGLISH  GERMAN	Dr. Carolina Silva MD, Pediatrician
14:30 – 15:00	Hands-on: orodispersible films (OrPhyllo) <i>See orodispersible films made at the bench — a fast-dissolving, swallow-free dosage form demonstrated step by step, from casting to finished dose.</i>  ENGLISH  GERMAN	Bruna Marianni PharmD

Women's health, HRT, transdermals & young talent

TIME	TOPIC	SPEAKER
11:00 – 11:30	MODERN WOMEN'S HEALTH: MENOPAUSE & VULVOVAGINAL CARE The clinical picture: menopause & vulvovaginal care <i>Individualised bioidentical hormone therapy, vulvovaginal atrophy and recurrent vaginitis — a gynaecologist's view on what patients really need.</i>  ENGLISH  GERMAN	Dr. Melina Stasinou MD, Gynecologist
11:30 – 11:50	The right dose, the right form: transdermal HRT & vaginal films <i>Translating the clinical need to the bench: precision transdermal HRT (PentraVan) and mucoadhesive vaginal films (FemPhyllo) as modern, patient-friendly dosage forms.</i>  ENGLISH  GERMAN	Dr. Hudson Polonini PharmD
12:00 – 12:30	PHARMACEUTICAL FILMS: A CUTTING-EDGE DOSAGE FORM The thin frontier: why films matter <i>Why films are among the most exciting dosage forms in modern compounding — the science of polymers, mucoadhesion and drug loading, and where they outperform conventional forms.</i>  ENGLISH  GERMAN	Dr. Anderson Ferreira PharmD
12:30 – 13:00	Hands-on: vaginal mucoadhesive films (FemPhyllo) <i>A practical, cutting-edge demonstration of preparing vaginal mucoadhesive films from start to finish — a genuinely novel dosage form, made live before your eyes.</i>  ENGLISH  GERMAN	Bruna Marianni PharmD
13:00 – 13:30	Compounding without risk – nurturing young talent responsibly <i>How pharmacies introduce young talent to compounding: safely, in compliance with the law, and with a passion for the craft. The 2023 PTA of the Year shows how quality and responsibility go hand in hand.</i>  GERMAN  ENGLISH	Wolf-Hendrik Ittner PTA of the Year 2023
14:00 – 14:45	Better transdermals: compounding with precision and confidence <i>Getting actives through the skin reliably. Formulation strategy, vehicle selection and quality control for transdermal preparations that deliver reproducible, clinically meaningful outcomes.</i>  ENGLISH  GERMAN	Dr. Hudson Polonini PharmD
15:00 – 15:30	Optimising transdermal HRT formulations (on the pharma-world stage) <i>Producing bioidentical hormone formulations safely, reproducibly and efficiently – proven formulation concepts and practical tips for everyday compounding.</i>  GERMAN  ENGLISH	Dr. Stefan Bär PharmD
